HTML / CSS

Responsive Design

Accessibility (WCAG)

Conversion-focused design

Language

English - *fluent*

Spanish - *native*

Darío Sánchez

UX,UI Designer / Web Developer

Portfolio: <https://dario-sanchez-design.webflow.io/>

Experience

- Truenorth Corporation**
April 2025 - November 2025
Web Developer

 - Designed and developed responsive websites for government agencies using Webflow and WordPress, improving accessibility, performance, and user experience.
 - Collaborated with cross-functional teams—including designers, project managers, and stakeholders—to translate Figma prototypes into high-quality, production-ready sites.
 - Built custom Webflow components and WordPress themes to support unique client requirements while ensuring compliance with government standards.
 - Optimized site architecture, page load speed, and SEO fundamentals across multiple public-sector projects.
 - Managed end-to-end project workflows, from concept and wireframes to deployment, QA, and post-launch updates.
 - Ensured WCAG-compliant design and development practices for government clients, enhancing usability and accessibility.
 - Coordinated with external teams and internal developers to solve technical issues, streamline workflow, and meet strict project deadlines.
- Estudios Técnicos Inc.**
September 2024 - February 2024
UX/UI Designer

 - Enhanced company branding by refining visual elements and design guidelines, creating a cohesive and modern brand identity that improved recognition and client perception.
 - Conducted user research and usability testing to identify pain points and optimize design solutions, resulting in a 30% improvement in user satisfaction scores for key applications.
- Meet Your Finance (MYF)**
March 2024-August 2024
UX/UI Designer

 - Redesigned the company's landing page with design technologies (such as **Figma** and **Webflow**), transforming the overall aesthetic to positively reflect the brand identity, which led to improved brand perception and a 25% increase in visitor retention rates.
 - Designed and developed a user-friendly landing page and learning management system for young adults, enhancing access to finance education, which resulted in a 30% increase in user engagement within the first three months of launch.
 - Applied agile design methodologies at Meet Your Finance, enhancing collaboration and accelerating the design process to deliver user-centered solutions more efficiently.
